## biography

Lola Haro burst into the scene in 2018 with a fresh selection of warm sounds and an intuition for creating the right mood. Her love and passion for music and her authentic approach have been refreshing and gained her a lot of recognition within the Belgian club scene.

During her short career she managed to earn a residency at Paradise City Festival and C12, Brussels. Additionally, she got her first Boiler room appearance under her belt, was awarded as “Most Promising artist of 2019” by Red Bull Elektropedia and hosted her own weekly radio show on Studio Brussel.

Exciting times are ahead as Lola will launch her own label and event series during 2022. Small steps but always forward.
