biography

Mietze Conte is an artist hailing from Vienna, Austria. Since exploding onto the scene in 2022 with debut track ‘bunnybunnybunny’ and debut EP “Nervous”, they’ve pioneered an eclectic and uninhibited electronic movement, writing and producing truly unique music.

2023 saw Mietze Conte release two EPs — “Under my Bed” and “dreaming of your latte art” — both of which achieved millions of streams and saw people across the world connecting with the world Mietze Conte had started to create. Alongside these releases, Mietze Conte debuted their live set in Tokyo.

2024 saw Mietze Conte performing a sold-out run of shows in Australia, alongside 1tbsp. This was followed by a selection of performances across Europe and the UK, and a lot of new music. July saw the release of their debut album “Mietzee”, followed shortly by ambient album “ee oo” and finally a collaborative effort with Otto Benson, “Hobby’s” — shared at 11:59 on the last day of 2024. Mietze Conte continued on the live front between these releases, with another sold-out Australian tour, a second performance in Tokyo, and a debut performance in Seoul.

Now, Mietze Conte is sharing the first offering of new music for 2025, with ‘knows’ — a euphoric track that dips its toes into the world of indie electronic.
