Reality Is Not Limited To The Perception That We Commonly Use

biography

A voyage through uplifting melodies and dark, hypnotic grooves, Julya's music tells what words cannot.

Brooklyn-based DJ and producer, Julya Karma, has quickly become an unstoppable force in the house and techno scene. Her prowess as a selector and infectious energy in the booth has consistently delivered utter elation on dance floors across the world, including Coachella, Cercle, The Brooklyn Mirage, Time Warp, Afterlife, Mayan Warrior, and Bar Americas, appearing alongside heavy-hitting artists like RÜFÜS du Sol, Adriatique, Tale of Us, Sven Väth, Dixon, Âme, Innellea, Mind Against, and Monolink.

Julya's influences stem from learning classical piano at the age of 6, and from her early exposure to indie and psychedelic rock, traditional Middle Eastern music, and jazz. These diverse influences combined with her music curating obsession translate into her very dynamic DJ sets, where she aims to take her audience on an unexpected journey that is both outward and introspective, weaving moving melodies, driving basslines, and stimulating progressions to create her own individual, yet universally understandable sound.

Julya is endlessly inspired by music's ability to bring us to higher levels of consciousness, and to tell us stories about the gift of life and being - she aims to create music and experiences that do just that. With her first release, 'Eye of the Storm', out on Radikon, and a big second release, 'Hypnotized' out on RÜFÜS DU SOL's Rose Avenue, Julya's exciting journey is just beginning.
